Forecast for Wednesday 18 May 2022

Weather: Scattered heavy showers are likely early on Wednesday morning but these will mostly clear by mid-morning. Bright or sunny spells are expected to develop for most ranges and dry for most of the rest of the day. Cloud will increase later in the afternoon as a band of rain moves towards the west coast and begins to progress northeast during the late evening with some squally rain for a time.

Chance of cloud-free hill tops above 800m: 60% increasing to 90%, low cloud in the morning will clear by lunchtime. Further low cloud later in the evening.

Low Cloud and visibility: Scattered cloud 3-600m in the morning associated with showers will lift and clear to leave only patches of lower cloud. Visibility will be poor for a time in any morning showers but later in the day it is expected to be very good. Through the late evening visibility will deteriorate as rain moves over the area again.

Met Office Aberdeen Meteorologist's View
A windy day with gales on higher munro tops, especially gusty around any morning showers.

Forecast for Thursday 19 May 2022
Weather: Overnight rain will clear north to leave a few showers during the morning. Showers will clear and it will become a dry and sunny afternoon for most ranges.

Maximum wind: Southwesterly winds 20-25mph with gusts 30-35mph.

Chance of cloud-free hill tops above 800m: 70% improving to 90%.

Low Cloud and visibility: Scattered cloud from 600m in the morning will thin and become patchy around 7-800m at times for western ranges. Visibility will be poor at times in morning showers but becoming good during the afternoon.

Temperature: **Glens:** Plus 10 rising to 17 Celsius.
At 800m: Plus 3 rising to 8 Celsius.
Freezing level: Above all summits.
